Dice Jobs

At A Glance

For employers today, posting a job to Dice is essential to connecting with a community of millions of unique, engaged and quality technologists.

83%

of active tech professionals on Dice are not actively searching for jobs on other sites.[1]

8 in 10

technology professionals agree that companies who post jobs on Dice are more tech savvy than those that do not.[2]

"I think I got 95% of my jobs on Dice!"

Scott T.
Quality Assurance Lead

Through tech-focused AI, Dice matches your job postings with the most engaged and relevant technologists based on each role's unique requirements. Interested technologists have the tools to learn about your roles, as well as your employer brand, and easily apply in just a few clicks with their information already stored on Dice.

Let AI Find Candidates for You

Through Dice's AI and patented Knowledge Graph, we automatically connect your tech job postings with the most relevant technologists and ensure quality candidates apply to your roles.

Connect With an Engaged Audience

Put your job postings in front of Dice's engaged community of technologists. Plus, through our amplification efforts, your jobs are dynamically promoted to hundreds of partner sites and preferred technologist channels.
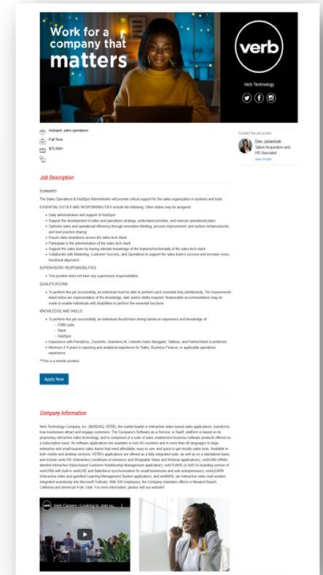

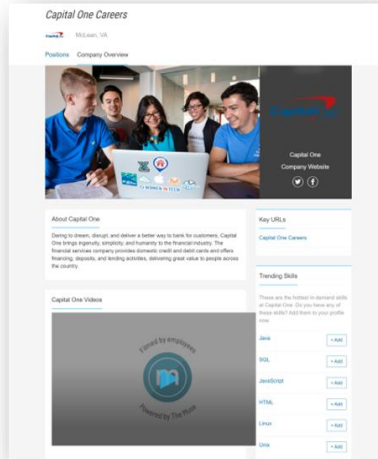

Make It Easy for Technologists to Engage and Apply

Gain applicants with a hiring platform that makes it easy for technologists to search relevant jobs, engage with your employer brand and apply to open opportunities – all in one fast and easy experience.

# Elevate Your Jobs With Additional Dice Solutions

Jobs & the Employer Branding Bundle

Differentiate your company and set your job postings apart from competitors by sharing your company vision, mission and values.
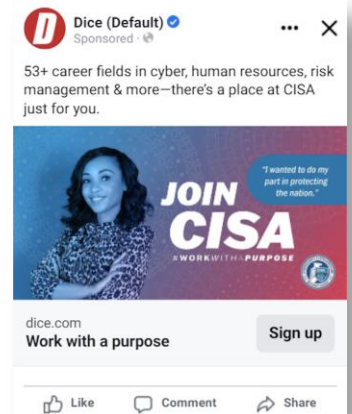

Jobs & TalentSearch

Complement your job postings with TalentSearch, which offers access to millions of Dice members who are ready to engage, and the ability to invite them to your open jobs.

Jobs & Social Solutions

Drive quality traffic to your job postings to increase reach and performance through social media platforms. Plus, target your posts by specific locations, skills, years, titles or work authorization.

Dice has even more solutions to help you find and connect with your next great hire.
